MOODY SPEAKS

Includes Arguments In Chicago Packers' Immunity Plea Hearing.

GROWS SARCASTIC

DECLARES IT WOULD BE A CALAMITY TO THE GOVERNMENT FOR DEFENDANTS TO ESCAPE TRIAL

CHICAGO, March [illegible] Attorney General Moody spoke [illegible] hearing of the [illegible] by the packers [illegible] ment just [illegible] a train for Washington [illegible] that the [illegible] well found [illegible] be entitled [illegible] immunity [illegible] had given their evidence [illegible] free will and had not been [illegible] oath [illegible] subjected to compulsion [illegible] any kind. He at times grew very sarcastic in his reference to the [illegible] of the attorneys [illegible] who had claimed that [illegible] could not be punished because they had voluntarily given evidence to Commissioner Garfield.

Roosevelt's Letter

Late in the afternoon Attorney General Moody referred to the letter written by President Roosevelt to the attorney general which was placed in the record of the case by the [illegible] for the packers. He said:

"It has been said here that the president wrote a letter referring to this matter. I am the last man in the world to say that these gentlemen should not give their best to their clients, but if they felt it their duty to place that letter in evidence when it touches upon another subject against the man in the White house who is unable to come here to protect himself—if they felt it their duty to make their attack upon him I have little more to say."

Miller Asks Question

In justice to us," said Attorney Miller, "I would like the attorney general to explain how, since the letter was made a public document by him, it could be an attack upon the president."

"I will allow my statement to stand unqualified," retorted the attorney general.

Attorney General Moody then declared that it was only those who had committed acts without the law and who feared the law, who sought to be protected by it.

"Does the learned attorney general forget that Mr Garfield told these defendants that he was here to investigate a violation of the injunction issued against them restraining them from acting in violation of the law against restraint of trade?" asked Attorney Hynes.

Moody Answers.

"I do not forget," replied the attorney general. "I do not care. It goes to show that these men were warned that criminal action might be taken. If they did then seek the protection of the law, having been warned, the fault is their own, the responsibility is theirs, and the results fall upon their own heads."

In concluding Attorney General Moody said:

"If on these propositions these defendants escape a trial into the truth of these charges it will be a calamity to the government and for these defendants. I hold for them that they are innocent until they are proved to be guilty. You Judge Humphrey, alone of all the eighty million people of this land have the solution of this question and I leave it with confidence to you."

Attorney Miller who had waived part of the time alloted for his argument to allow Attorney General Moody to speak, made a brief reply to some of the questions asked by the attorney general.

Immediately after the conclusion of his argument Attorney General Moody left for Washington.

SENATE VOTES $140,000,000

PENSION APPROPRIATION BILL PASSED — RAILROAD RATE MEASURE UP FOR CONSIDERATION.

WASHINGTON, March 20.—In less than 20 minutes the senate voted away $140,000,000 of the public funds. The sum is carried by the pension appropriation bill which brief document was made the subject of very little discussion.

The railroad rate bill was laid aside for the day and the major portion of the time was devoted to the consideration of the fortification appropriation bill. [illegible] the necessity for seacoast fortifications in the Philippines was discussed at considerable length with the result that all provisions for such fortifications was eliminated from the bill. The consideration of the measure was concluded.

There was also a brief discussion of the power of a conference committee to amend the bill providing for the punishment for the premature divulgence of government secrets so as to make the inhibition extend to senators and members of the house but the subject was [illegible] undisposed of for the time.

HADLEY ON HIS GUARD

TAKES STEPS TO PREVENT REPUBLIC OIL COMPANY FROM WITHDRAWING

SHIFTING OF INTERESTS SAID TO BE CONTEMPLATED TO DEFEAT MISSOURI OUSTER PROCEEDINGS.

ST. LOUIS, March 20.—[illegible] case of Missouri against the Standard, Republic and Waters-Pierce [illegible] was [illegible] Republic [illegible] cross examination of Charles M. Adams, secretary treasurer of the Waters-Pierce [illegible] who was [illegible] stock [illegible] the Standard Oil company [illegible] stock in the Waters-Pierce company [illegible] 1900, when that company was reorganized.

Attorney General Hadley today telegraphed to Secretary of State Swanger at Jefferson City asking him not to permit the Republic Oil company to withdraw from [illegible] business in Missouri as such a course if permitted would defeat the purpose of the investigation.

Mr. Hadley explained that during the taking of testimony in Cleveland recently he received intimations that there might be a shifting of oil interests in Missouri and that he had immediately written Secretary Swanger along that line requesting that particular care be taken that this should not be allowed.

"I saw a news item today that the Republic Oil company was seeking out to the Standard company in other states and I wired Secretary Swanger to recall my Cleveland letter to his mind," said Mr. Hadley. "I can only say that my action was prompted by a few revelations in the testimony of the first two days."

CONSULAR OFFICES SHORT OF MONEY

FOREIGN SERVICE GREATLY HAMPERED IN ITS WORK. CONTINGENT FUND COMPLETELY EXHAUSTED

WASHINGTON, March 20.—As the result of the failure of the state department to secure at the hands of congress deficiency appropriations aggregating $70,000 for contingent expenses of embassies, legations and consular offices many of the consular offices have been obliged to cut off a large part of the necessary routine work. A cablegram received today at the department from one of the consulates in Japan asked whether the consul should refuse invoices of shippers to America.

The department sent out a circular letter today to all of its offices abroad notifying them that the contingent fund was exhausted and directing them to refrain from making any further drafts. So there will be in many cases no money for clerk hire, postage, or of other consular necessities. The American ambassador at Paris is obliged to pay out of his pocket a fee to a concierge next door to the embassy when he wishes to send a telephone message, for the embassy is not allowed a telephone. There is some expectation on the part of the officials that provision will be made by congress for such deficiencies in the regular appropriation bills but in that case the money will not be available before the end of the present fiscal year."

FIGHT PROMOTERS CHARGED WITH KILLING TENNEBAUM

SAN FRANCISCO, March 20.—Mrs. Rachael Tennebaum today swore to a complaint before Judge Cabiniss charging Frankie Neil, Mark Shaughnessy, Tim McGrath, William Roche, Thomas Burke, James Kelley and John Frank with killing and slaying without malice on the night of February 28, her son Harry Tennebaum, during a glove contest.

Herbert Choynski, attorney for the Yosemite club, requested to be allowed further time to prepare his case, but Judge Cabiniss declined to permit delay and took up the case. Dr. Kusich, an autopsy surgeon to the coroner, was called to the stand and reiterated the testimony given by him at the preliminary hearing.

Owing to the absence of Police Lieut. McManus, who was present during the fight, further hearing of the case was postponed until Thursday morning.

MAYOR ROSE CLAIMS HE HAS NOMINATION.

MILWAUKEE, March 21.—At 1:30 this morning Mayor Rose claims that he has been nominated on the Democratic city ticket by a plurality of between 550 and 600 votes over William George Bruce. Sherburn Becker, Republican, is nominated for mayor on the Republican ticket and William Arnold will lead the Social Democratic ticket. The election will be held April 1.

TWO-CENT FARE BILL HAS BEEN KILLED

DES MOINES, Ia., March 20.—The house committee on railroads and commerce voted today to kill the Sankey two cent fare bill. Prominent railroad men were before the committee to protest against the measure.

THOUSANDS KILLED

Earthquake's Victims More Numerous Than First Reported

LONDON, March 21.—According to Daily Telegraph's correspondent at Tokio it is now estimated that several thousand persons were killed by the recent earthquake in Formosa. The whole island was shaken from early morning on Saturday until late at night, the shocks being continuous. On the same day eight shocks were felt in Japan and from Saturday night until the following morning five distinct shocks occurred at Kamamoto. Telegrams from Formosa state that the prosperous towns of Dattyo, Kaishiko and Shirko were destroyed. At Kagi alone 2,000 natives and seven Japanese were killed. The government departments are transacting business in the open fields. At Dattyo 500 bodies have already been recovered from the upfields to which the people had fled only to succumb to their injuries. At a rough estimate the damage amounts to $15,000,000.

NINETEEN PERISH IN A VERA CRUZ COAST STORM

MEXICO CITY, March 20.—Nineteen persons perished in a terrific norther which swept the coast of Vera Cruz yesterday. Two of the victims were pleasure seekers from this city, J. R. Strittmatter, nephew of J. C. Strittmatter, president of the American club and Francisco Penna, a member of a prominent family here. The other 17 were fishermen.

J. C. Bush and R. Barkly, who were in a boat with Strittmatter and Penna were rescued. It is believed here that further loss of life has occurred.

TWENTY MEN ROB A BANK

THE CREDIT MUTUAL OF MOSCOW LOOTED—THIEVES SECURE $432,500.

MYSTERY SURROUNDS DARING ACT—WAS COMMITTED UNDER VERY EYES OF POLICE AND GUARDS.

MOSCOW, March 20.—The Credit Mutual, one of the largest banks in Moscow, was mysteriously robbed by masked men at dusk tonight, the robbers securing $432,500. It was an unusually daring job.

The facts already developed raise the question whether the robbery was committed by or under the direction of some one at present or previously employed in the bank. The bank is located in Ilinka street, in the heart of the city. The last of the clerks had just departed leaving an inside guard of three men while outside were a policeman and the house porter. The street was crowded with people hurrying homeward. According to the story of the guards in the twinkling of an eye they were confronted with revolvers in the hands of 20 masked men who had entered silently by the main door, which had been locked. After a command to the guards to keep quiet they were quickly bound and gagged. The robbers then took up positions at all the entrances and the curtains of the windows were lowered. The chief of the robbers who directed the operations of his associates by gestures and without speaking showed thorough familiarity with the location of the vaults. When all was ready he went to the heavy burglar-proof safe and with a few twirls of the knob threw the combination of the lock, the heavy doors swung open and the treasure of the bank was revealed.

The plunder, consisting of gold, silver and notes was speedily thrust into sacks. When a clean-haul of the money had been made, not a kopeck being left, the robbers departed as silently as they came, making their exit through the main entrance and leaving no trace behind them. They had been in the bank less than half an hour.

Twenty minutes later one of the guards succeeded in freeing himself and gave the alarm. The dumfounded policeman and house porter who had been standing in front of the bank throughout claimed they had seen no one enter or leave it.

An immense crowd was attracted to the scene. It is the general impression that the key to the mystery is within the bank itself.

A WILD RUMOR

Mutinous Sebastopol Sailors Said To Be Firing on Fort.

OFFICERS KILLED

ACT REPORTED TO BE IN REVENGE FOR EXECUTION OF LIEUTENANT SCHMIDT, STORY DISCREDITED

ST. PETERSBURG, March 20.—Most sensational reports are current tonight that the execution of former Lieut. Schmidt, which has made a deep impression throughout Russia has been followed by an extensive mutiny of sailors at Sebastopol, the massacre of their officers and firing by the fortress upon the city.

The alleged news came [illegible] of two cipher telegrams [illegible] member of the Social Democratic party, such as the revolutionists have sometimes been able [illegible] through accomplices [illegible] offices when the public [illegible] have been unable [illegible]

[illegible] stated and displayed [illegible] of radical newspapers [illegible] telegrams say briefly that the sailors [illegible] by the refusal of Emperor Nicholas to pardon Lieutenant Schmidt and his fellow sailors [illegible] barracks and seized and [illegible] the majority of the officers. The [illegible] add that the city of Sebastopol [illegible] most entirely in flames. [illegible] stated that a [illegible] the [illegible] institute has received a similar telegram.

The admiralty affected ignorance [illegible] of the occurrence of any such affair. The papers in view of the menace of the new press law, which provides that they may be closed up for spreading false reports affecting the army or navy are afraid to take chances by publishing the story tomorrow.

SMOWSLIDE VICTIMS

Another Fatality Reported—Man Thought Dead Escapes.

SILVERTON, Colo., March 20.—Another name was added today to the list of victims of the snowslides in this vicinity, raising the total to eighteen. George Marcopp was killed and Robert McIntyre seriously injured, according to advices received here today, by a slide which swept away the Silver Wing mine workhouse at Animas Forks last Saturday.

PUEBLO, March 20.—A special to the Chieftain from Telluride says:

Adolph Hellene, who it was supposed was swept to death in a snowslide last Saturday evening, made an appearance here today. His cabin was buried under the slide but sufficient air penetrated for Hellene to breathe and finally dig his way out.

MOORISH PRETENDER WANTS TO BE CONSULTED

PARIS, March 21.—The Moorish pretender and 96 chiefs have forwarded protests to Algeciras against the representatives of the powers disposing of Morocco without consulting them.

The pretender according to the text of the protest published this morning, states that when he enters Fez victorious he will refuse to recognize the conference decision.

VALENCIA WRECK REPORT IS MADE

INVESTIGATING BOARD FINDS CAPTAIN JOHNSON BLAMABLE AND CRITICISES RELIEF EXPEDITIONS.

VICTORIA, B. C., March 20.—The finding of the commissioners appointed to look into the Valencia disaster was made today. The report found Captain Johnson blamable in not having located his position before attempting to enter the straits, and held him guilty of grave errors of judgment also in not having made due allowance for the northward set of the current well known to coast navigators. Censure was passed upon the lack of discipline prevailing after the wreck, as well as on the broken cork cement life preservers and inefficiency of drill.

Those on the steamers Salvor and Czar were found to have been in ignorance of there being people on the wrecked vessel when they went to the Bamfield to aid in recovering the victims. The steamer Topeka was found under the circumstances not to have stood properly by while the Czar and Salvor were adjudged to have acted with discretion.

The finding included a number of recommendations for the betterment of protection to shippers traversing waters contiguous to The Vancouver island coast.

IVENS ON THE STAND

Cross Examination of Witness is Finished—Arguments Next

CHICAGO, March 20.—Richard Ivens on trial for the murder of Mrs. Bessie Hollister was cross examined today. He was shown several confessions of the murder, all of them purporting to be signed by him. Ivens in reply to questions said the handwriting looked like his, and that he may have signed them but he didn't know. He said his memory was very poor as to what happened on the day he made the confession to the police.

The cross-examination of Ivens was concluded late this afternoon. Although it was severe it did not alter his story in any way and he insisted to the close that he did not kill the woman, knew nothing of the murder and could not remember making any confession. When he left the stand the defense announced that it had finished its case.

Arguments which will commence tomorrow will last at least two days.

FORMER COUNTY OFFICERS TO PAY BACK "GRATUITY"

CINCINNATI, March 20.—Following the declaration of Tilden R. French that he would pay to the county the amount it is estimated he received as "gratuity" from the banks during his terms as county treasurer, if the courts decided that he was not entitled to the money; Mr. French today handed to County Prosecutor Rulison a check for $35,000. If the figures produced from the bank books indicate a larger amount he promised to pay the remainder. Former County Treasurer Hynnicka and John Gibson have also agreed to pay the county their "gratuity."

SCALE BOARD IS AT WORK

MINERS AND OPERATORS REFER DEMANDS TO A SPECIAL COMMITTEE.

SECOND JOINT CONFERENCE ADJOURNS WITHOUT TAKING IMPORTANT ACTION—BOTH SIDES FIRM.

INDIANAPOLIS, March 20.—The second joint conference of the coal miners and operators of the competitive district, comprising the state of Illinois, Indiana, Ohio and western Pennsylvania, which was the result of efforts of President Roosevelt to effect a permanent peace in the coal industry throughout the United States, adjourned this afternoon after referring the demands of the miners to the joint scale committee which will begin its deliberations tomorrow at 9 o'clock. After the conference had effected organization President Mitchell delivered a brief address in which he outlined his views as to the purpose of the extraordinary joint conference at the close of which he moved the adoption of the scale of wages demanded by the miners in the joint conference which adjourned February 2. The scale provides for an increase of 12½ per cent. The motion was lost in a strict vote, the operators voting unanimously in the negative, while the miners voted as a unit in favor of its adoption.

John H. Winder, of Ohio, the newly-elected chairman of the operators moved the adoption of a resolution which provides that the present wage scale with all attending conditions be adopted for a period of one year beginning April 1. The motion was defeated.

The miners voted against the proposition to a man. The operators voted aye with the exception of those from Illinois.

Mr. Robbins then moved that the matter be referred to the joint scale committee which will meet tomorrow morning and that the conference adjourn to reconvene at the call of the committee.

Mr. Mitchell seconded the motion which was carried unanimously.

FIRE LOSS $35,000.

NORTH LOUP, Neb., March 20.—Babcock and Gowen's department store, Davis' furniture store and the postoffice at this place were today destroyed by fire and several buildings in the neighborhood were damaged. Loss $35,000.

SETTLEMENT STILL REMOTE

FRANCE AND GERMANY REMAIN FAR APART ON MOROCCAN QUESTION.

DELEGATES DO NOT CONCEAL DISCOURAGEMENT AUSTRIANS PREPARING FURTHER POLICE PLAN

ALGECIRAS, March [illegible] France and Germany before [illegible] Moroccan [illegible] The Associated Press learns from one of the [illegible] delegates that the Austrian [illegible] [illegible] further [illegible] It is hoped will [illegible] suggest [illegible] less objectionable to France [illegible] Casa Blanca proposition [illegible] same time safeguarding the [illegible] principle.

[illegible] proposed [illegible] the powers to which [illegible] shall be responsible [illegible] of German and French ideas. The Russians will introduce an amended plan which will be discussed simultaneously with the Austrian plan until a final understanding is reached. Meanwhile Henry White, chief of the American delegation [illegible] taking the lead of the other neutral delegates in active endeavors to effect a speedier settlement than the one suggested.

Most of the delegates are absolutely wearied while awaiting the arrival of the eternal tomorrow when an agreement is promised but which is daily put off again as the result of apparently unending pour parleurs at the various European chancelleries.

It is stated this evening that this week will see the end of the conference but the impression is growing that a settlement is much nearer than is admitted by the delegates who generally display extreme reticence. The French is the only quarter where pessimism is shown, the general opinion rejecting the idea of a rupture.

HOUSE USES A MICROSCOPE

SPIRIT OF ECONOMY IN APPROPRIATIONS IS MANIFESTED. SALARIES KEPT DOWN TO THE LIMIT.

WASHINGTON, March 20.—The house today did business with a microscope in one hand and the bill making appropriations for the salaries of its officers and employes in the other hand. The result was that although five hours were spent in reading the legislative appropriation bill for amendment, less than 25 pages were completed. The spirit of economy in little things was all absorbing. Points of order were made and many of them were fatal to proposed increase in the salaries of officers, janitors, doorkeepers, messengers and laborers.

A point of order which made the engine room allowance of the house $270 a year, instead of $280, as proposed, caused a constitutional debate of more than an hour on the point as to whether the house could do as it saw fit in the matter of fixing the salaries of its employes. The conclusion seemed to be that it could and that it prescribed its own action by its rules. However these rules prohibited increasing a salary without provision of law.

The final round of the day was a debate as to whether the house could get as good packing boxes as the senate did for its members and finally a move, which failed, however, was made to eliminate packing boxes entirely from the perquisites of members.

ABSCONDING BROKER DIES WHILE TRYING TO ESCAPE

SAN FRANCISCO, March 20.—Confirmation of the death of Allen Howard, the absconding broker who left here last August with $40,000 has been received by the chief of police in a communication from the state department inclosing three dispatches from Alfred Winslow, the American consul at Guatemala City. The dispatches chiefly tell of Howard's flight through New Orleans to Port Barros and his attempt to reach Guatemala City by a circuitous route. While stopping at a small hamlet he was stricken with yellow fever from which he died within a few days. Only seven cents were found among his effects.

MINERS TO BE TAXED FOR STRIKE FUNDS

PITTSBURG, March 20.—Telegrams received here today from Indianapolis stated that President Mitchell of the mine workers has decided upon an assessment of 20 cents a week for the local miners, to be used in case a strike is called April 1. Some months ago the miners were assessed ten cents a week for a strike fund but the order was effective but for one month.

The miners of the local district do not regard this as an indication that there will be a strike.

SUBPOENA FINALLY SERVED ON TILFORD

NEW YORK, March 20.—Henry Wollman, New York counsel for Attorney General Hadley of Missouri announced that the task of serving Henry M. Tilford with a subpoena in the matter of the Standard Oil hearing in New York has been accomplished. He said the subpoena had been served on Mr. Tilford today.

MOYER LOSES

Court Quashes Writs of Habeas Corpus In W. F. M. Case.

DATE OF TRIAL SET

IS INDEFINITELY FIXED FOR ABOUT MAY 15—PRISONERS PLEAD NOT GUILTY NOW IN BOISE JAIL

BOISE, Idaho, March 20.—Judge J. H. Beatty, in the United States court today quashed the writs of habeas corpus in the cases of Charles H. Moyer, William D. Haywood and George A. Pettibone [illegible] granted [illegible] [illegible] strike [illegible] Attorney E. F. Richardson gave notice of appeal to the United States supreme court.

Judge Beatty stated he had thoroughly investigated the question before him and had examined all the references noted in the briefs. He stated that it was the practice of his court to be governed decidedly by the decisions of the United States supreme court and by the decisions of the federal courts, that where the state courts and federal courts gave adverse decisions on the same issues the state court decisions were denied.

Judge Explains the Law.

He took up the points raised by the defendants that they should be discharged because they had been brought to Idaho under fraudulent means and that they were not extraditable from Colorado because they were not fugitives from justice from Idaho. Judge Beatty decided that his court had no jurisdiction to inquire into the methods whereby the prisoners were brought into this state in the proceedings at bar.

"There is no provision that I have been able to find in law," said Judge Beatty, "whereby I have jurisdiction to remand the prisoners to a sister state after they have been brought into the demanding state as in the present instance. Now that the prisoners are in Idaho I cannot make any order to prevent their detention and trials here."

Case Set for May 15.

BOISE, Idaho, March 20.—Charles H. Moyer, William D. Haywood and George A. Pettibone charged with the murder of former Governor Frank Steunenberg, today pleaded not guilty when arraigned before District Judge Frank Smith, at Caldwell. The cases were continued over the term, and the date of their trial was indefinitely fixed at about May 15.

When the cases were called today, Judge Smith overruled the demurrer to the indictments and denied the application to admit the prisoners to bail. He stated that in holding the indictment to be good, he had followed the rulings of the California supreme court. The constitutions and common law statutes of California and Idaho are practically the same.

After the three prisoners had been arraigned another application to admit them to bail was made and was promptly denied. Judge Smith then announced that the Canyon county jail was an unfit and unsafe place for the detention of these prisoners. He issued an order for the removal of Moyer to the county jail at Boise and it was stated that he will send Haywood to the county jail at Weiser. Pettibone will remain in the jail at Caldwell.

Defense Objects.

Attorneys for the defense objected to the order of removal maintaining that the county jail at Caldwell was satisfactory. Counsel for the defense have steadfastly opposed all plans to separate Moyer, Haywood and Pettibone and it was to keep these officers of the Western Federation of Miners in close association that they had them confined in the little jail at Caldwell. It has been claimed that the detectives wanted to separate the prisoners, their object being to work upon them individually in the hope of securing admissions that could be used to advantage by the prosecution.

President Moyer was brought to Boise this afternoon and placed in a cell in the county jail, far removed from other prisoners.

OPERATORS SAID TO BE MISSING

JURY INVESTIGATING RIO GRANDE WRECK WANTS TESTIMONY OF LIVELY AND VANDEUSEN.

PUEBLO, March 20.—A special to The Chieftian from Canon City says:

After being out two hours this afternoon the coroner's jury investigating the Adobe wreck disaster reported that they could not return a verdict until they had the testimony of Agent Lively and Operator Vandeusen of Swallows. As neither could be produced the inquest was adjourned until 2:30 o'clock p. m. Monday. In the meantime Sheriff Esser of Fremont county is instructed to produce the two missing Rio Grande operators, the whereabouts of both being at present unknown to the officers. The officers of Pueblo, Denver and other cities have been asked to search for the missing men.

CARNEGIE GIVES $50,000.

HAMILTON, Ohio, March 20.—Andrew Carnegie has offered $50,000 to complete the $250,000 endowment fund now being raised by the Western College for Women.

BOND AND LEASE ON THE CALEDONIA

DENVER SYNDICATE ACQUIRES GOLD HILL PROPERTY — SUM NAMED IS $175,000. NOTES.

Special to The Gazette.

CRIPPLE CREEK, March 20.—A bond and lease has been given by the United States representative of the Caledonia Gold Mining company to a syndicate of Denver men. The lease is for three years, with a provision that the shaft, which is now 200 feet deep, must be sunk to 400 feet. The bond calls for an approximate sum of $175,000. Consummation of the deal and the beginning of work will be done immediately upon record of the papers from the Caledonia owners, who reside in London.

This is one of the biggest deals that has been made in the district for many months.

The Caledonia property is located on a spur of Gold hill and was once owned by W. S. Stratton. In 1894 J. M. Flinn held a lease on the claim and took out $50,000 and then lost the shoot. The property is equipped with machinery, shaft and ore houses.

Denny and company, operating the Galena, on Red mountain, are crosscutting from the tunnel, which has been extended 1,000 feet, for a vein found in the bottom of the shaft at 300 feet. On the first level from the old shaft they have cut a one-foot vein which, it is believed, will carry values of from three to four ounces. A mill test will be made this week.

The Beacon Hill Mining company, which about a month ago found ore in the Beacon Hill Ajax through the El Paso air shaft, has, since March 1, been averaging $1,000 a day. All of the ore has been mined in drifting, which now has been extended 125 feet north.

The Homestake Gold Mining and Milling company has given a lease on the Gold Queen and Brayan claims, for two years, to James Offutt of Cameron. The royalties are 15 per cent for the first year and 20 per cent the second.

STORM WRECKS A DOZEN VESSELS.

BOSTON, March 20.—In the storm of March 19 and 20 at least a dozen vessels were wrecked or damaged and six lives lost. That the list will grow in the next few days is probable in view of the size of the fleet which was off the coast when the storm was at its height.

The list of disasters and less serious accidents include the following schooners: Lady Antrim of Booth Bay, Me., total wreck at Marblehead, five lives lost; Rosa Mueller of Booth Bay, ashore at Cape Podue, Mass., crew escaped; Marion Draper of Booth Bay, ashore, but floated at Hyannis; Winnie Laury of Boston, sunk off South Yarmouth, Mass., crew escaped; C. C. Lane of New Haven, wrecked at Boston light, crew escaped; Sarah A. Reed of Calais, Me., ashore at Northport, Me., crew escaped; barge No. 17, New England Transportation company, sunk at New London, woman lost.

COUNT WITTE MAY HOLD ON LONGER

ST. PETERSBURG, March 20.—No confirmation of the reported intention of Count Witte to retire immediately from office is obtainable at the chancellory, but on the contrary the possibility of his relinquishing his task pending the meeting of the national assembly is not admitted. In fact, there is a disposition to treat Count Witte's reference to M. Kokovsoff, which created such a stir in the council of the empire yesterday, as an ironical thrust at the overweening ambition of the former minister of finance. It is also denied that the condition of Count Witte's health is desperate. He is more or less constantly a sufferer, but no alarming symptoms have developed.

CASE ON TRIAL.

Special to The Gazette.

CRIPPLE CREEK, March 20.—The case against George R. A. Hall, charged with attempting to defraud an insurance company out of $8000, is on trial in the district court.

Treating Wrong Disease.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only *symptoms* caused by *one* uterine disease. The physician, ignorant of the cause of suffering, encourages this practice until large bills are made. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, *directed to the cause*, would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native medicinal roots and is perfectly harmless in its effects in *any condition of the system*.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

TOMBSTONE, Ariz., March 20.—A prisoner, arrested at Naco, said to be L. J. Simpkins, wanted in connection with the Steunenberg case in Idaho, was brought to Tombstone today. The officers think the prisoner is not Simpkins, but believe he is wanted in connection with the dynamiting of the Independence depot at Victor, Colo. The man under arrest gives the name of Tom Momwer.

FRENCH MINERS REJECT PROFFERED ADVANCE IN WAGES

LENS, France, March 20.—The miners' congress today rejected the companies' proffer of an increase of 10 per cent in wages. The action of the congress, however, will be submitted to the referendum of the 51,000 strikers.

The strikers are still excited. Tumultuous demonstrations occurred this evening, but there was no intervention of troops.

CAMP BIRD MILL BURNS.

OURAY, Colo., March 19.—Fire broke out early today in the ruins of the Camp Bird mill, which was wrecked on Sunday by a snowslide, completing the destruction of the plant. The mill was erected in 1898 at a cost of $500,000 by Thomas F. Walsh, who at that time owned the Camp Bird mine, which he subsequently sold to an English company.

STAR LECTURE COURSE

Statesmen and Orators to Appear Under Y. M. C. A. Auspices.

The Young Men's Christian association has decided to conduct a star lecture course on a popular basis next winter and is now booking a list of fine attractions. The season will begin in October. Season tickets will be sold for $1 each, and 1,000 tickets must be sold to cover the expenses of the season.

The attractions already engaged include Senator LaFollette of Wisconsin, Senator Dolliver of Iowa, President Russell H. O'Connell of Temple college, Philadelphia, and Newell Dwight Hillis, lecturers; the Bostonia Sextette club and Shanna Cumming, soprano; the Slayton Jubilee singers; the Dunbar Landbell ringers and male quartette; Marco, magician, musician and crayon artist, and Frank Dixon, orator.

Dr. Lyman B. Sperry spoke to two crowded meetings yesterday afternoon and evening. His lecture last night on "Four Fourths of a Man" was especially interesting. He said that the four parts of a man are the nutritive department, the motor or locomotor department, the brain and nerve department and the race reproducing department. He made a plea for the normal development of all four departments.

Dr. Sperry will speak in the auditorium at 4 o'clock this afternoon to boys and will give a lecture to men this evening at 8 o'clock on the subject, "G plus C equals GC, or the mind versus the body."

Spring and summer athletics will be discussed at a meeting of the physical department Thursday afternoon at 5 o'clock.

HERCULANEUM TO BE EXPLORED.

There is every reason now to believe that the excavation of Herculaneum, which is expected to yield art treasures far greater than those of Pompeii, will soon be begun. The central commission of archaeology at Rome has decided to found, under the direction of the archaeologist, Charles Waldstein, an international society for the excavation of this ancient city, and the Italian minister of public instruction has published his approval of the project. The consent of the government is thus assured, and there only remains the collection of the necessary funds. These considering the importance of the undertaking and the general interest in it should be readily procured.—New York Evening Post.

COLORADO SPRINGS D. G. CO. HAS SUCCESSFUL OPENING

The large and newly stocked store of the Colorado Springs Dry Goods company was a veritable bower of beauty yesterday at the opening of the first showing of the spring goods and millinery.

A large crowd availed themselves of the opportunity to inspect the new offerings and [illegible] popular store.

All over the store were decorations, a touch of color here, festoons of bright ribbons there and roses and spring flowers seemed to be fairly growing from almost every nook and corner. But particularly in the millinery section on the second floor did the decorations excel, for here Mrs. McCracken had worked a transformation scene to properly display the beautiful showing of spring millinery secured on her eastern buying trip. Over the mirrors were banks of violets, hanging from the wall were floral umbrellas, and everywhere the eye reached were evidences of spring. On this same floor is an exquisite display of modish gowns in [illegible] the prevailing shades and styles decreed by Dame Fashion for spring and summer wear. Fink's orchestra furnished music for the occasion and all over the store were many compliments given on the large and splendid showing made by the new store.

While no especial attempt was made in the shoe department for display, W. N. Northway, in whose charge is this large and important department, had a fine showing of the new shapes and styles of footwear for ladies and men. This department under the able management of Mr. Northway does one of the largest shoe businesses in the city.

The credit for the general fine showing of the store is due to the untiring efforts of P. L. Thorsen, the general manager, who does most of the buying in person right in the heart of the markets back east, and naturally thereby gets the most fashionable things as soon as they come out. Mr. Thorsen has spent a life-time in merchandising and the large success of the store is a testimonial of his ability as a manager.

BAD FOR FESTIVE TROUT

Contrivance That Will Make Fishermen Set Up and Take Notice.

An ingenious contrivance to make it easier for anglers to catch less fish with more trouble, or, rather, vice versa, has been invented by Chas. D. Hopkins, manager of the Exchange Registry & Guarantee company. It is a collapsible fishing rod with a "see that hump" attachment near the grip. Inside of this protuberance is a group of small and large cog wheels and axles which take the place of a reel. By moving the handle of the rod back and forth, a piston gearing operates the hidden reel which takes in the line rapidly. Pressure of a button conveniently located makes the reel free running, enabling casts to be made.

Stomach Distress is A Danger Signal

Gas on the stomach, belchings, pains and weakening perspirations resulting shortly after eating are the signs nature provides as stomach warnings.

The most general and only cure for such ailments is to promptly cleanse the bowels. If the proper physic is taken, relief is almost immediate, but because the proper physic is not taken, chronic cases of constipation, indigestion, dyspepsia and many other ailments that are directly due to these disorders are set up.

The physics usually taken—salts, pills, tablets, etc., do cleanse the bowels but not without causing a great loss of strength. The bowels cannot then perform their functions without another physic and continually a stronger drug is required, until a dangerous "pill habit" has been formed.

Dr. Caldwell's Syrup Pepsin

has a strengthening influence upon the bowels and intestines. It is pleasant to take, does not weaken or gripe, and never establishes the dangerous habit which most other remedies do.

Dr. Caldwell's Syrup Pepsin is sold by all druggists at 50 cents and $1.00 per bottle.

Your money back if it don't benefit you.

TEMPERATURE 62 DEGREES BELOW ZERO IN ALASKA.

"Sixty-two below zero was the lowest registered at this point up to our going to press."

No, not in Colorado Springs, but a news note gleaned from the Yukon Press, published at Tanana, Alaska, on January 6, a copy of which has been received by Charles Schiele. Shivering humanity in Colorado Springs, where the sun shines nearly every day in the year, may gain from The Press that one or two stormy days are not so bad after all. The monthly weather report in The Press shows that the warmest weather they had in that country during December was 16 degrees above zero, while 63 was the lowest. There were 16 clear days and 15 cloudy—it didn't say whether there was frost on the sun.

COLUMBIA MEN TO ATTEND ANNUAL STATE BANQUET

A number of Colorado Springs men who are graduates of Columbia university will attend the eleventh annual state banquet of the Columbia Alumni association, to be held at the University club, Denver, Saturday evening. Dr. Rudolf Tombo, a member of the Columbia faculty, will make the principal address. The following Springs men are members of the association: Melville F. Coolbaugh, Theodore DeWitt, George J. Finlay, Patrick F. Gildea, Orner T. Gilien, Henry C. Hall, James A. Hart, Herman C. Joy, Samuel H. Kingsley, Paul M. Lennox, George J. Lyon, Cortlandt E. Palmer, H. A. Ruger, C. B. Sehley, Daniel J. Scully, Frank Sill, H. A. Smith, C. C. Spicer and William Strieby.

STRANGE FACTS.

It seems strange that sometimes your stomach or bowels won't digest your food, no matter what you eat.

It may be the weather, or it may be just the state of your general health, but in any case, there is only one certain, safe and positive method of cure, and that is the proper use of that universal remedy, for all forms of dyspeptic trouble or digestive weakness, whether in stomach, liver, kidneys or bowels—Stuart's Dyspepsia Tablets.

Strange, it is, that in such little tablets, to be taken a few times a day, may lie such wondrous potential possibilities, that by their use the course of a man's whole life—yes, of the world—may be changed!

Yet, who would not appreciate the fact that if Napoleon had not been suffering from cancer of the stomach he would have won instead of lost—at Waterloo?

And Stuart's Dyspepsia Tablets would have cured his stomach trouble had they then been invented, as they have cured thousands of others in the past ten years, who have suffered just as Napoleon did.

So you can readily appreciate that today, by curing all these people, Stuart's Dyspepsia Tablets is helping to get the world's work done, by people who would do worse work if they were sick, so they must be having a great influence, in a quiet way, on the world's [illegible]

They may, therefore, be classed as one of the triumphs of science, amongst other discoveries, in medicine, mechanics, transportation, etc.

Let this, then, remain in your memory, a fact upon which to act when occasion requires:—

When any organ in your vast digestive machinery gets out of order, you have at your command one of the great inventions of the age, in Stuart's Dyspepsia Tablets, to put your machinery in order again.

By so doing you will save much useless friction, add to the energy and working possibilities of your bodily machine, and relieve yourself from suffering, disease, weakness, premature old age and death.

All this is strictly in accordance with the most modern teachings of the best scientific schools of health, hygiene and medicine, and it will be to your advantage to lay these facts to heart.

Don't hesitate. Try Stuart's Dyspepsia Tablets today.

A TRAINED NURSE

After Years of Experience, Advises Women in Regard to Their Health.

Mrs. Martha Pohlman of 55 Chester Avenue, Newark, N. J., who is a graduate Nurse from the Blockley Training School, at Philadelphia, and for six years Chief Clinic Nurse at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience, besides her professional education, and what she has to say may be absolutely relied upon.

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source.

Mrs. Pohlman writes:

"I am firmly persuaded, after eight years of experience with Lydia E. Pinkham's Vegetable Compound, that it is the safest and best medicine for any suffering woman to use."

"Immediately after my marriage I found that my health began to fail me. I became weak and pale, with severe bearing-down pains, fearful backaches and frequent dizzy spells. The doctors prescribed for me, yet I did not improve. I would bloat after eating, and frequently become nauseated. I had pains down through my limbs so I could hardly walk. It was as bad a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Since that time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to recommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female ills, where all other medicine fails. It is a grand medicine for sick women."

Money cannot buy such testimony as this—merit alone can produce such results, and the ablest specialists now agree that Lydia E. Pinkham's Vegetable Compound is the most universally successful remedy for all female diseases known to medicine.

When women are troubled with irregular, suppressed or painful periods, weakness, displacement or ulceration of the female organs, that bearing-down feeling, inflammation, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement.

The needless suffering of women from diseases peculiar to their sex is terrible to see. The money which they pay to doctors who do not help them is an enormous waste. The pain is cured and the money is saved by Lydia E. Pinkham's Vegetable Compound.

It is well for women who are ill to write Mrs. Pinkham, at Lynn, Mass. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant for many years before her decease, and for twenty-five years since her advice has been freely given to sick women. In her great experience, which covers many years, she has probably had to deal with dozens of cases just like yours. Her advice is strictly confidential.

OKLAHOMA'S CHANCES.

Today the house will again consider the statehood bill, but so far as the present session is concerned, Oklahoma and the Indian Territory seem to be in the position of the fellow in the song who was left "out in the rain, and the cold and the snow." First, the House decided that the four territories must come in as two states, and all at once, or not at all. Then the Senate declared that Oklahoma and the Indian Territory could come in as one state, but the people of the Southwestern region must be permitted a chance to express their opinion of joint statehood at the polls—which was merely a way of sidetracking the effort to jam Arizona and New Mexico into the Union as one state.

Now the House refuses to take the Senate's view of the situation. The benevolent despot who enacts legislation for the "popular" branch of the national legislature has announced flatly that the House will stand pat on its original bill, and when Mr. Cannon makes such an announcement he is usually prepared to back it up. The members of the House know this perfectly well—so well that few of them have the courage to buck against the traces. Probably three-fourths of the majority are tired of the futile effort to force statehood upon the two Southwestern territories against their will, and would gladly confer the right upon Oklahoma and New Mexico if they could, but they can't. Mr. Cannon is the boss of the House, and he won't let them. When a caucus on the subject was held the other day, only 35 votes could be scared up in favor of concurring in the Senate bill, as against 126 endorsing the House measure.

It is a pity that President Roosevelt ever gave his support to the Hamilton bill, for thus it became an "Administration measure"—sure to be jammed through the House without serious consideration and almost as sure to be defeated in the Senate; with the final result of nothing accomplished. The injustice of the thing, so far as Arizona and New Mexico are concerned, was apparent from the start. In his annual message to Congress the President merely endorsed it, but gave no definite reason for doing so; and since then he has been almost lukewarm in his support. It was reported at the beginning of the season, and generally believed, that Mr. Roosevelt endorsed the bill simply to put an end to a troublesome matter—which at best is a very poor reason. But it is as plain as a pikestaff now that the omnibus statehood bill cannot get through the present session, and there are excellent reasons for believing that it could not pass the next session either.

Meanwhile, a grave injustice is being done Oklahoma and the Indian Territory, whose fitness for statehood is not even questioned. The House ought by all means to concur in the Senate amendments and admit these two territories as one state, leaving Arizona and New Mexico for future consideration. But Speaker Cannon is obdurate; he has become so used to having his own way that he apparently regards it as the only way, and unless pressure comes from the White House he is not likely to move. This is a splendid chance for the President to show his interest in the West by making an effort in behalf of those sadly buffeted territories, Oklahoma and the Indian Territory.

THE NEW YORK LIFE TRUSTEES.

The decision of fifteen trustees of the New York Life Insurance company to repay to the company the contributions, aggregating $145,000, made to the Republican National Committee for campaign purposes, shows that the force of public opinion is still being felt by the men at the head of the big life insurance concerns. This conclusion is not altered by the fact that if the action had not been taken voluntarily, legal proceedings against the trustees would probably have been started to compel them to make restitution. That such proceedings could be successful is by no means certain, for the money seems to have been disbursed in regular form, and there is no law forbidding expenditures of this kind.

But the propriety of such expenditures is a different matter. The whole question was pretty thoroughly threshed out in the press immediately after the late President McCall admitted on the witness stand that he had made these contributions, and the general conclusion was that while individuals and private commercial corporations have a perfect right to make political contributions as they see fit, insurance companies, especially mutual concerns, which hold in trust vast sums belonging to individual policy-holders, have no right to do so.

It is hard to criticise the position of Democratic policy-holders in the New York Life, for example, who are indignant because their money was used without their knowledge to aid in defeating their Presidential candidates in the last three campaigns. On the other hand, President McCall urged that he and the trustees regarded it as their duty to protect the interests of the company, and thereby the interests of the policy-holders, by doing what they could to prevent a change in governmental policies which, they were convinced, would bring financial disaster to the country. The conditions in the two Bryan campaigns, we believe, fully justified the utmost exertions by all business interests, large and small, to defeat the Democratic candidate; but there are peculiar reasons why the insurance companies should stay out of such affairs. Apparently the fifteen trustees of the New York Life, who with President McCall authorized that company's contributions, have come to this conclusion, else they would not so readily go down into their own pockets to restore the money, even under the pressure of public opinion.

But at the same time these trustees perform one virtuous act they are engaged in another even more discreditable, though possibly not so expensive to the policy-holders as their donation of campaign funds. Mr. Orr, the new president of the company, and the trustees, are busying themselves soliciting proxies in the hope of securing a re-election at the annual meeting, which is to be held April 11. This in itself is a justifiable procedure, no doubt, but the fact that they are carrying on their campaign with funds belonging to the company, and therefore to the policy-holders, is an entirely different matter. Samuel Untermeyer, attorney for a policy-holders' association, declares he has reason to believe that letters of solicitation and printed matter have been sent to every policy-holder, which, if true, would involve an expenditure of about $30,000 for postage alone, and as much more for printing. It is said that twenty clerks are kept busy sending out circulars to policy-holders at an estimated expense of from $200 to $400 a day.

This charge emphasizes the importance of the insurance legislation now pending at Albany. So long as there are loopholes in the law which permit insurance officials to engage in practices of this kind, it is certain that they will take advantage of them. This is only one instance and there may be a hundred others. It is plain that if the work of the Armstrong committee is to accomplish effective results the New York legislature must exercise the utmost care in the framing of its new insurance laws.

HALF-HEARTED CONSULAR REFORM

In its treatment of the Lodge consular reform bill the House has shown itself to be about as anxious for real reform in this branch of the foreign service as the Senate was. As drafted by Senator Lodge, the bill provided for such a complete reorganization of the consular service as would put it on a plane with those of such enterprising commercial nations as Great Britain and Germany. It had the indorsement of Secretary Root and of the business interests of the country, but when it struck the Senate it was speedily divested of several of the clauses on which its efficiency most depended.

The most important of these was a provision for competitive examinations for admission to the sixth and seventh classes of consuls. The character of the examination was prescribed and one of the requirements of applicants was "at least one modern language other than English." It is a fact that no other first class nation in the world ever thinks of sending as consul to a foreign country a man who is unable to speak the language of that country, but the Senate saw in this provision a source of serious danger to the party workers who, whatever their unfitness for the consular service, must be rewarded by posts of honor abroad. So the Senate promptly struck out the entire provision and passed the bill without it. Now we shall keep on sending consuls to Germany who can't speak a word of German and other commercial representatives to South America who couldn't recognize a sentence printed in Spanish if it stared them in the face all day. We shall also keep on wondering why it is that in certain foreign markets where the acquisition of business depends largely on the consul, other nations continue to sell most of the goods.

But the Senate was kind in its attitude toward the consular bill, compared with the House. The Committee on Foreign Affairs of the lower branch looked over the remnants sent in from the other end of the Capitol and saw a chance to do still another good turn for the spoilsmen. So it ran its blue pencil through the provision which grades the consular positions and permits appointments to grades rather than to specific consulates, thereby making it possible for the President to transfer consular official from one place to another. The House committee evidently thought this treatment too businesslike for political jobs which are popularly supposed to be soft snaps, so a favorable report on the bill was voted minus this provision.

The bill as passed contains several features which make it an improvement over the present law, such as the provision requiring that all consuls above the lowest grade must be American citizens. But considering the relation between consular efficiency and our foreign commerce, it is a great pity that the measure could not have been passed in its original form.

Subscriptions for the relief of the Japanese famine sufferers are being collected all over the country, and already a considerable sum has been raised. Reports from the stricken district indicate that the necessity for aid will continue for several months longer, or until a new crop can be grown. America has always been the first and most generous contributor to the relief of famine sufferers in Russia, India and other countries less bountifully blessed than our own, and it is apparent that in this case the aid so freely extended to those countries is not to be withheld. In Colorado Springs one of the ministers has already forwarded a few contributions to the relief committee in New York, and as there are doubtless many others who would gladly assist in the work we take this means of stating that subscriptions are being received by the Christian Herald, New York, the publishers of which will make due acknowledgment and see that the money is placed in the proper hands in Japan.

"The Colliers are trying to bankrupt me," says Colonel Mann. If that threatened coal strike comes, the colliers and the owners of the collieries will manage between them to bankrupt a good many people who persist in indulging in the luxury of heat.

If the Simplified Spelling Board wants to boil the language down to absolute simplicity it ought to enlist the services of the genius who invented that terse but meaning phrase, "I. O. U." Nothing could be much simpler than that.

It appears that 281 midshipmen have been guilty of hazing at Annapolis. No wonder Secretary Bonaparte decided not to expel all hazers. If he had, the 1906 crop of naval officers would be decidedly slim.

LIEUT. PIKE'S DIARY

For One Hundred Years Ago Today

Friday, 21st March, 1806.—[illegible] a visit from [illegible] chief, called the Shawnees, and six [illegible] without reserve the [illegible] Lake and of the letter I had written to M. D[illegible]. He denied the accusation in toto, and on the contrary said that he presented his flag and medals to the Chippewas, as an inducement for them to desist in the spring, and gave them all the encouragement in his power. His party was much astonished at the language I held with him; but from his frequent protestations, we finally parted friends. He informed me that a camp of Sauteurs were on the river, waiting for the chiefs to come down, from whom it appears they were still expected. At night, after the others had gone, [illegible] arrived and [illegible]. We agreed on a hunting party for the next day, and also promised to pay the old St [illegible] a visit. He informed me that he had set out the other day to follow me, but the fog [illegible] so very bad, had returned to his wigwam. The [illegible] was lower [illegible] than it had been [illegible] here, previously to my commencing [illegible].

MONEY-SPENDING.

This is the day of [illegible]. Never before in the history of [illegible] has [illegible] stress been laid upon money. Material possessions have come to be regarded as [illegible] nearly every work [illegible]. Wealth is [illegible] Standard [illegible] these times, and however we may view this tendency in affairs, we are compelled to acknowledge that certain things are facts, not Sandas of overestimated imagination. The comic paper [illegible] slightly truths in their jests, the loud cry against the accumulation of vast wealth by the few is not a passing fancy, like big sleeves or tight trousers. The fact we face every day in every [illegible] existence is this. The power of money.

Now, money of itself, that is gold, silver or paper dollar, has no power. Man alone can make it powerful, and this he does by his use of it. Some may choose to say his "misuse." In many instances it is that [illegible] many instances. But the fact remains that money of itself is powerless to achieve good or commit evil.

As with most material things, its strength depends upon its use. A pound of iron may be made a [illegible] weight or a dagger, a square of marble a carriage block or an immortal statue. Man is master of all materiality, and, as such is answerable to his Master for the results of his stewardship. This fact proclaims one truth that is often overlooked or forgotten nowadays—the truth that material things are the slaves of man by divine ordinance and should, therefore, never be allowed to assume any other relation.

The evil of which money is the source lies not so much from the making of money as from the spending of it. As a rule, except in cases where wealth is amassed by fraudulent or unfair means, the making of money implies a certain measure of honest labor, and the fruits of honest labor can't be productive of evil until they are turned into the channels of wrong. The number of men who commit wrong in the making of money is infinitesimally small in comparison with the number who commit wrong in spending money.

It is a fact fairly recognized that, in order to make money, one must be possessed of one of two qualities, mental or physical prowess. Naturally, the larger reward goes to the mentally endowed, because life is the rarer attribute and, by reason of its nature, is capable of increasing the productiveness of the other.

There is another fact, just as much a fact even though it be seldom recognized, and this is that in order to spend money wisely one must also be endowed with something higher than the mere ephemeral flights of want and need. We commonly believe that the way to make money is to plan and work, but whether or not we believe anything about money, we commonly indulge in it as we indulge in blinking our eyes without thinking. The plague is a cloud of thoughtless spenders, which darkens many a bright prospect and through its lack of thought upsets many possibilities for doing good and being useful.—Leigh Mitchell Hodges in Philadelphia North American.

PARTY STILL HANGS ON.

Young Joseph Medill Patterson, of Chicago, may be an important accession to the ranks of Socialism, but the Republican party is making no distress signs.—Telluride Journal.

INCREASING FERTILE ACREAGE.

The extensive introduction of irrigation pumps bids fair to increase many fold the rich agricultural acreage of Colorado. In every part of the state thousands of acres hitherto untilled and lying waste because too high for laterals from the large canals, are being brought into cultivation.—Greeley Sun.

PROMOTIONS IN THE ARMY.

A careful, intelligent and just system of promotion is necessary if the efficiency of the army is to be maintained at a high standard. This is the puzzle which military authorities have set themselves to solve, and it is a perplexing one. Promotion only by seniority is a mistake that has been too often demonstrated; promotion by selection is largely open to that personal and political favoritism which has been apparent in recent years. All experience proves that an efficient army depends upon efficient officers. It is urged, therefore, that in the improvement of our military establishment promotion must depend not upon seniority or personal favor, but upon efficiency.—Portland Oregonian.

SUPREME SATISFACTION.

There may be others just as good, but there is no section of country with a brighter future before it, than that of North Park.—North Park Union.

QUESTION: "HOW MUCH?"

What is stock worth?

In the first place, it is all anticipation. Every investor knows that. No one can say just what the mine will produce. This is particularly true in the beginning. But, as stock is sold and money is received, the possibilities of making it worth something are increased. This means that the stock has greater value. It should have greater value. If the mine is a failure, everybody is greatly disappointed. If it is a success, it was surely equitable that the investors who came in later paid more for their stock.

If a company sells stock of the par value of $1 for 50 cents, and turns that money or as much as honest promotion will permit into the treasury, that stock is WORTH more than dollar stock sold at 5 cents, if there are many places for the funds to be sidetracked. Results, or the efforts to make results, determine the value of the stock.

One can tell the value of a house, because values are more fixed in that line. One can judge the value of household goods, or horses, or railroads. But mines are what no man understands until development has proved their value, or has shattered all theory about them.

Steadfastness and honesty of purpose count. They, of all things, determine the value of stock more than the arbitrary fixings of manipulators. Of course, where stock cannot be sold readily, one is very apt to think it has no value. But where stock is sold for honest development purposes, what does it signify if there is a poor general market for it?

The stock that is the most freely peddled, may be the most sought—or it may be the least sought. The developing proposition has something better than a stock market—and there is the natural increase in stock values.

This increase is one of reality of the success of development.—Daily Mining Record.

A. B. C. of Rate Question

(From the Kansas City Star.)

WHAT is the railroad rate controversy about?

The fight is over the president's plans for remedying certain evils in the railroad situation.

What are these evils?

Of the several varieties of which shippers complain, two classes are of most importance. Those involving discriminations in freight rates between individuals or places, those resulting from excessive charges for carrying freight. Passenger rates do not enter prominently into the controversy.

What sorts of discriminations are made between individuals?

By law, railroads are compelled to charge all comers alike for any given service. When for some reason a road secretly gives some favored person or firm a lower rate on shipments than others get, it is guilty of discrimination. Thus, the rate on wheat from Kansas City to Chicago is 12 cents per hundred pounds. If a certain commission house is allowed to ship at ten cents, it clearly will have an enormous advantage over its competitors in selling wheat in Chicago. On 100,000 bushels this would amount to about $1,200. In fact, if a shipper can get a sufficiently good concession from a railroad he may make a fortune while his rivals may barely make a living. The foundation of the success of the Standard Oil company was its ability to get a lower rate on its oil shipments than its competitors could secure. Railroad discrimination has contributed powerfully toward fostering monopolies.

Are the railroads alone to blame for the discrimination evil?

No, the shippers are partly responsible. The railroad grants a low rate, not because it wants to, but usually because it thinks the cut necessary to get the business for which it is competing with other lines.

But if rate-cutting is prohibited by law, how do the railroad traffic managers avoid being found out?

Various devices are used, including the rebate, the private switch, the private car line, non-collection of bills, under-weighing of freight, manipulation of elevator charges and the like.

What is the rebate?

If a Kansas City shipper gets a rate of 10 cents a hundred on a shipment of 100,000 pounds of wheat to Chicago while the regular tariff rate was 12 cents the road might collect $120 from him at the 12-cent rate and then return the extra $20 to him secretly. The $20 returned would be a rebate. But rebating is so strictly forbidden by law now that it is becoming obsolete. Much safer methods of evading the statutes have been found.

What, for instance?

Last summer a Kansas City firm was shipping wheat to Chicago evidently on better terms than other concerns could get. It was found that the wheat was billed to Minneapolis via Chicago at the regular Minneapolis rate of 12 cents, but that it was stopped at Chicago and sold. Presumably of the through rate, 6 cents was charged for the haul from Kansas City to Chicago and 6 more from Chicago to Minneapolis. So the firm was probably getting a 6-cent rate to Chicago by this device while its competitors who had no favors were paying 12 cents. Another favorite device is to collect every month only part of a favored shipper's account, so that the books will show him paying the regular rate, but getting more and more heavily in debt to the railroad. Still another device is to permit a big shipper to build a switch to the railroad line from his factory and then to pay him an exorbitant price for its privileges. Still another is to permit the shipper to own his cars and then to pay him heavily for their use. The Standard Oil company, for instance, is generally understood to get its rebates in the shape of heavy payment by the railroads for the use of its tank cars.

How common are these various forms of illegal discrimination?

Naturally no complete information is available. But in Wisconsin a careful investigation secured by Governor La Follette was able to trace more than $6,000,000 of illegal payments to shippers from 1897 to 1903. One Wisconsin grain firm alone was found to have received $151,000 from the railroads in five years, enough to have given it a handsome profit, even if it had merely broken even on its grain business. It is safe to assume that a very large proportion of big shippers get illegal reductions of freight rates.

What is meant by discrimination between localities?

The railroads give certain towns better rates than others in order to develop markets or to build up their own resources in various ways. For instance, a paint dealer in Spokane, Wash., must pay $53 more freight on a carload of supplies from Chicago than the Seattle dealer pays, though Spokane is 250 miles nearer Chicago. A rate on rope from San Francisco to Kansas City was recently quoted at 60 cents per hundred pounds, while the rate to Hutchinson, Kan., 220 miles shorter haul, was $1.01.

How does this locality discrimination affect the country?

It permits the railroads to dictate to a considerable extent what towns shall do the business. For instance, the discrimination against Spokane, already cited, has resulted in driving out of business there the Pacific Coast Pipe company that established a plant in 1900. By a slight change in the schedule the Louisville & Nashville is able to divert cotton shipments from the port of Savannah to that of Pensacola. Thus the railroads have the power of life and death over many of the smaller cities. Furthermore, a discriminatory policy that may help a particular railroad may be injurious to the whole country. It is rightly contended that in such important matters involving the fate of whole communities an appeal ought to lie to an impartial umpire such as the Interstate Commerce commission.

Are freight charges in the United States generally regarded as too high?

Undoubtedly they are, in many cases, especially where a road has a monopoly. Thus, in 1903 rates on lumber from Georgia to Ohio river points were advanced 2 cents per hundred pounds. This meant $132,000 to Georgia lumber dealers, and they protested. Their contention was upheld by the Interstate Commerce commission and the circuit court. But as an appeal to the supreme court was taken they are still paying $132,000 a year above a just rate.

About what percentage of complaints refer to rates as unreasonable in themselves?

Of 552 cases decided by the Interstate Commerce commission only 10 per cent had to do with the unreasonableness of the rate, while 40 per cent turned upon discriminations.

Why is it anybody else's business if a railroad wants to charge one man less than it charges another?

Because the railroad in a peculiar degree is a public servant. It owes its very existence to the state which permits it to seize the land necessary for its track. Therefore the state has the right to compel it to treat all persons alike and to regulate its charges. A grocer may sell sugar at 5 cents a pound to one customer and at 10 to another if he likes, for he has no special privileges from the state. But the railroad is differently situated.

If railroads get their rights-of-way from the states, why can the national government interfere?

Because a large part of the traffic is interstate commerce which the constitution gives congress the authority to regulate.

What relief has a shipper from unjust treatment under the existing laws?

He may appeal to the Interstate Commerce commission, which, after a hearing, may order the railroad to desist from making what it regards as an unjust charge. It cannot fix the rate to be charged, and since its decisions are usually taken into court, years must pass before they become effective, the shipper meanwhile paying the old rate. In cases of secret discrimination relief must be sought from the courts under the Elkins law.

What does the President want to have done?

The principal changes which he desires have been embodied in the so-called Hepburn bill which passed the house in January and is now before the senate. This bill recognizes the Interstate Commerce commission and gives it authority when complaint is made not only to order a rate changed, but to specify the maximum rate that may be charged.

But could not the roads practically nullify the commission's orders by fighting in the courts?

No, for the bill specifies that the new rate is to go into effect within thirty days after the order is issued unless a court interferes, and the president favors a provision prepared by Senator Spooner compelling the railroad to pay into court the difference between its charge and that ordered by the commission. This money would go to the shipper if the final decision were in his favor. Such a provision, it is believed, would prevent the railroads from fighting the commission's orders except when they really believed them unjust.

How would the proposed law remedy evils resulting from secret discriminations?

The commission is given large power to regulate private car line and switch arrangements, icing charges and most of the other evasive practices now indulged in. Besides, the railroad that gave a favored shipper a cut rate would risk having the commission decide that all business must be accepted at the same rate.

What is the attitude of the railroad interests toward the pending measure?

They do not hope to prevent the enactment of the new law. But they are fighting to have it amended so that every case decided by the commission may be taken into the courts on its merits and heard from the beginning. That would insure sufficient delays practically to nullify the law. President Roosevelt and his friends are fighting to have the court reviews limited in scope.

What is the line-up in the fight?

The railroads and many big shippers who get unfair favors are on one side. The public in general is on the other.

Failure

to cure indigestion is largely due to the old theory that when the stomach becomes inactive it needs something to mechanically digest its contents, and cathartics, purgatives, etc., are used, which give only temporary relief.

Doctors now recognize the fact that it is the nerves that furnishes motive power to digest the contents of the stomach. When they become weakened the lack energy, and indigestion, dyspepsia, sour stomach result.

Dr. Miles' Restorative Nervine

will relieve all these cases of indigestion, dyspepsia and stomach trouble by strengthening the nerves.

"My daughter had stomach trouble, doctors said she could not live. We gave her Dr. Miles' Nervine. She got better from the first, and four bottles cured her."

A. H. MALCOLM, Ft. Dodge, Kans.

TO CURE RED NOSES.

In an Indian newspaper appeared an advertisement: "How to Cure Red Noses permanently, absolute secrecy; send 2s 6d and stamped envelope." Many women, thinking their noses were pinker than was becoming, wrote and on opening their stamped envelope, read: "Go on drinking until it becomes purple."

SPRING.

Spring, the sweet Spring, is the year's pleasant king;
Then blooms each thing, then maids dance in a ring,
Cold doth not sting, the pretty birds do sing,
Cuckoo, jug-jug, pu-we, to-witta-woo.

The palm and May make country houses gay,
Lambs frisk and play, the shepherds pipe all day,
And we hear aye birds tune this merry lay,
Cuckoo, jug-jug, pu-we, to-witta-woo.

The fields breathe sweet, the daisies kiss our feet,
Young lovers meet, old wives a-sunning sit,
In every street these tunes our ears do greet,
Cuckoo, jug-jug, pu-we, to-witta-woo,
Spring! the sweet Spring!

THE DISTINCTION OF DASHER.

Dasher at college was "brilliant" they say,
Rattling good fellow, the best of his day,
Free with his money and quick with a joke,
'Varsity pitcher and 'varsity stroke,
Loveable chap to a certain degree.—
Prominent Yalceton Man, '83.

Dasher invented the "yippy-yip yell,"
(Dasher was wild, as he's willing to tell.)
Easily marked to stand out from the ranks,
He was the leader of rushes and pranks;
Twanged a first mandolin, sang on the Glee,—
Prominent Yalceton Man, '83.

Dasher was chummy with Harry and Tom,
Dasher's flirtations enlivened the Prom,
He had a story and, Jove, it was gay!
No one in college could tell it his way;
All of the campus raconteurs agree,—
Prominent Yalceton Man, '83.

Dasher's at work for his living today,
Hair somewhat thin,—a suspicion of gray,
Dasher's sharp wits have grown plodding and slow,
Adding up figures for Someone & Co.
No one to laugh at his jokes,—can this be
Prominent Yalceton Man, '83.

Dasher's old mates have succeeded so far,
Smith deals in copper; Jones edits "The Star,"
White tried for congress, defeated by Brown,
Black runs a railroad, a church and a town,
Dasher's one claim to distinction must be,—
Prominent Yalceton Man, '83.

POLICE JUDGE TOOMBS FAVORED ADOPTION OF INDETERMINATE SENTENCES.

IN ABLE ADDRESS BEFORE MENS' LEAGUE OF FIRST PRESBYTERIAN CHURCH LAST EVENING.

[illegible] Police Judge A. P. Toombs [illegible] interesting address [illegible] which he has learned from the [illegible] Men's league of the First Presbyterian church last night. [illegible] has been adjudged [illegible] be at liberty, no matter whether he has been in prison for one year or [illegible] said Judge Toombs. [illegible]

Object of Punishment

[illegible] from the criminal classes [illegible] selfish act [illegible] Stop the multiplying of [illegible] and society will be reformed [illegible] purified in proportion as each man and woman reforms and purifies himself or herself. The object of punishment should be to redeem the criminal by putting him under restraints and discipline and when he is so reformed and redeemed he should be given a certificate of character and sent out in the world again to make his way as a man and not as a wild beast. If he is never reformed or reformed he must never come out of prison.

Under the present laws when a criminal has served his sentence he is allowed to go back into the world of activity a more corrupt man than when he went to prison. Or if he has profited by his confinement and is determined to lead an honest life he is shunned by society as though he was a wild animal. His picture is sent out to the police of every important town and he is not allowed to tarry anywhere.

"Of late there has been introduced in some states what is called the system of indeterminate sentences. Where this prevails, the courts are authorized especially in New York state, to use their discretion in sentencing a criminal to prison leaving the term of imprisonment to the governor of the prison. He to determine when the prisoner is fit to be returned to society. I am told that where this system is in vogue only fifteen to thirty per cent of released prisoners ever return to prison. Under the system of definite sentences from thirty to fifty per cent of released prisoners return to jail in a short time."

Judge Toombs also discussed the question of providing labor for prisoners saying that idleness and crime go hand in hand and that the prison should be a workshop.

Labor and industry are indispensable to the development of an undeveloped man either physically mentally or morally. To imprison all sorts and conditions of men together in idleness is a crime against humanity. All criminals are undeveloped men. To develop them they must be trained taught and disciplined. Idleness in prison or out of prison is wrong and enforced idleness is doubly wrong. It was a sad day for the prisoner when work was legislated away from him—and when he was left to while away his days in idleness.

CURE FOR DRUNKENNESS.

Orrine Treatment Is to Be Used at Home Without Publicity, or Loss of Time From Business.

Thousands of persons who really want to quit the use of whisky or beer, realize that they cannot do so without medical help, yet they cannot afford the time or perhaps the money to go to a sanitarium. Happily a new cure for drunkenness has been discovered which is to be taken at home and costs less than the average drinker will spend in a day.

In using Orrine there is absolutely no publicity as the remedy is sold by the leading druggist in nearly every city and town, or it can be sent by mail. Sure relief is positive when Orrine is used. So uniformly successful is this treatment that in every box is a registered guarantee which entitle you to a refund of your money if Orrine fails to effect a cure.

Orrine is in two forms. No. 1 a secret remedy, absolutely tasteless and odorless which can be given in food or drink without the patient's knowledge. No. 2 in pill form for those who wish to be cured. The price either form is $1 a box. Send to the Orrine Co. Washington, D. C., for free booklet and consultation blank.

The desire for liquor is soon destroyed after Orrine treatment is commenced and before long the patient is freed from the terrible drink craving and the drink will not be missed.

Orrine is for sale by the D. Y. Butcher Drug Co.

Spring and Easter Millinery and Garment OPENING

MUSIC. Both vocal and instrumental music—AFTERNOON FROM 2 TO 5 O'CLOCK, EVENING FROM 7:30 TO 9:30 O'CLOCK, by the ELLISON AND GILMORE TEAM, OF DENVER, who are far-famed as professional colored musicians. They will entertain you with bright, up-to-date music and good, old plantation songs. Everybody invited.

The feminine minds of Colorado Springs will welcome this announcement of our Easter Opening of New Spring Styles. Every woman will make a mental note of the fact that this is something she MUST attend.

Notwithstanding the attractiveness of our openings in the past, and the fact that they were acknowledged as the most noted functions of their character held in this city — this season's styles are far superior to any showing we have ever made.

The styles this season are so attractive, so varied and so extensive that the most extraordinary results have been attained. An hour spent here during this opening will give you a better idea of the spring season's styles than could be obtained were you to spend a week in shopping at any other time. All the newest and best styles will be on display.

We will be pleased to have every woman in and about Colorado Springs consider this announcement as a personal invitation to be our guest on Wednesday next.

Those who desire to make their selections during the opening will have ample opportunity to do so. We have planned so that everyone who desires may have the advantage of choosing their new things while all the novelties are on display.

Millinery, Tailored Suits, Dress Skirts, Costumes, Stylish Wraps, Fine Lingerie, Exclusive Corsets, Walking Skirts, Misses' Suits, Dainty Kimonas, New Jackets, Tailored Coats, Spring Hosiery, Long Gloves, Dress Waists, New Neckwear, Veils, Fans, Undermuslins, Purses, Bags, New Jewelry, Hair Ornaments, Etc.

SPECIAL MEETING OF THE CITY COUNCIL IS CALLED FOR TONIGHT TO PASS ORDINANCE.

The city council will meet in special session at 8 o'clock this evening for the purpose of placing upon its final passage the ordinance confirming the agreement with the town of Manitou for the right of way for the 24 inch water main connecting the Manitou settler with the High Line reservoir.

The ordinance should have been passed by the council Monday evening, but for some reason it was overlooked, and in order to secure prompt action the special session for tonight was called by Mayor Henry C. Hall.

Under the contract the work of laying the water main must be finished by June 1 and in the event that it is not completed by that time it will have to go over until the close of the Manitou tourist season.

NEWS OF THE COURTS

Prosecution Against Mrs. Alice Marsh May Be Dropped.

The Colombia Savings and Loan association filed complaints in two cases against Ernest Wascott et al., each action being to recover the sum of $974.62 upon promissory notes. In one case the note is secured by trust deed upon lot 1, block 222, Bott's addition to Colorado City, and in the other case the note is secured by trust deed upon lot 2, block 222, of the same addition.

The money demand suit of Will Lierd vs. Simon Schroeder was dismissed in the county court yesterday at the cost of the plaintiff.

In the probate division of the county court Judge Robert Kerr yesterday granted letters of administration to G. W. Packer in the estate of Mary A. Packer, deceased, and approved the inventory of the estate.

Mrs. Alice Marsh was arraigned before Justice W. N. Ruby yesterday upon a charge of larceny. The case was set for hearing on March 24 and the defendant was released upon $100 bond signed by the Rev. Benjamin Brewster. After ascertaining all the facts in the case Mrs. E. V. Hite the complaining witness has expressed a desire that the authorities manifest leniency. She is assisting Mr. Brewster in his efforts to aid the family of Mrs. Marsh in a hard struggle against poverty and sickness.

WHEAT MARKET WEAK ALL DAY

CORN AND OATS ARE FIRM AND PROVISIONS SELL HIGHER. TRADING GENERALLY LIGHT.

CHICAGO, March 20.—Increased receipts in the northwest and the prospect of a record-breaking crop in the southwest had a weakening effect today on the local wheat market. Sentiment in the wheat pit throughout the day was bearish and although prices at times were slightly above the closing quotations of last night, there was a tendency toward lower values. There was no influential buying in evidence and the market received its principal support from shorts. Pit traders and commission houses were the chief sellers. The main encouragement of the bears was found in reports from Kansas City that the prospects for a large crop of winter wheat are daily growing brighter. Heavy receipts in the northwest despite the poor condition of country roads, also tended to reduce prices. Factors that strengthened the market were firm cables and a decreased estimate of the Argentina surplus available for export. The market closed easy with prices at the lowest point of the day. The May option opened unchanged to ¼@¾ lower at 78⅝@⅞ to 78⅞, sold between 78⅝ and 79⅛, and closed at 78⅝. July ranged between 77⅝ and 78¼ and closed at a loss of ⅛@⅜ at 77⅝@⅞.

Small local receipts and firm cables caused a steady corn market and prices throughout the day held within a narrow range. Early in the day there was a fair demand by commission houses and offerings were readily taken. Later, however, the market weakened somewhat because of reports indicating an increase in the movement of the crop in the near future. The close was steady. May opened a shade lower to ¼ higher at 41@41⅜ to 41⅝, sold off to 41 and closed at the low point.

Oats were firm all day. There was good buying for investment account and a feature of the trading was liberal purchases of the May option by a prominent commission house. May opened unchanged at 30⅛, sold up to 30⅜@⅝, and closed at 30⅜.

Provisions sold at prices which marked a new high level for the season. Shorts and local packers were active buyers. Later, however, the greater part of the gain was lost on liberal profit-taking. A five to ten-cent advance in the price of live hogs and an excellent demand for cash lard were the main bullish influences. At the close May pork was up 7½ at $16.27½. Lard was up 5 at 8.22½. Ribs were a shade lower at $8.62½@8.65.

NEW BRIDGE.—With a view to making some permanent improvements in county bridges, the county commissioners were in conference yesterday with representatives of the Marsh Bridge company and the Houston Lumber company relative to the construction of a bridge across Sand creek at Fountain.

ALICE ROOSEVELT'S WEDDING was something to be recorded in the annals of history. Herbine has been acknowledged the greatest of liver regulators. A positive cure for Bilious Headaches, Constipation, Chills and Fever, and all liver complaints. J. C. Smith, Little Rock, Ark., writes: "Herbine is the greatest liver medicine known. Have used it for years. It does the work." Sold by the Hefley-Arculrius Drug Co.

PAULINE HALL IN "DORCAS."

Pauline Hall, the famous prima donna, will return to the Opera house after a long absence next Saturday for one performance of her comic opera success, "Dorcas," written by the authors of "Erminie." While differing wholly in theme and treatment, "Dorcas" possesses all the elements which made "Erminie" the greatest comic opera success of the age. It contains a wealth of comedy of the most mirth-provoking character, the action growing out of a series of amusing episodes which, while unnecessarily funny, are worked up in the most natural and plausible manner. The action is at all times spirited, each scene possessing a snap and go that is irresistible to the auditor. The music is dashing in character and so tuneful and catchy that the small boy will soon be whistling it upon the streets.

Miss Hall's present supporting company is identically the same as surrounded her in New York city. In the list of principals one finds Josephine Knapp, John Weatherby, May Bouton, Ethel Comstock, Mamie Scott, Janine Willis, Jenny Bartlett, Goeffrey Stein, Charles Fulton, Joe E. Young, Lyman White, Robert Burton, George Hall and J. P. Donnelly, all of whom are recognized artists.
